

Anaathithan Mahilnamby

Web Developer | IT Undergraduate

anaathithan@gmail.com • 0779 992 634 • [linkedin.com/in/anaathithan](https://www.linkedin.com/in/anaathithan)

PROFESSIONAL PROFILE

A highly motivated IT undergraduate specializing in Computer Science, with hands-on experience in full-stack web development. Skilled in building dynamic, responsive web applications using PHP, JavaScript, HTML/CSS and MySQL. Adept at working in agile team environments, having contributed to a collaborative group project (MotoStock26) covering user authentication, RBAC, and session management. Eager to apply academic knowledge and practical skills in a professional web development role.

TECHNICAL SKILLS

Frontend	Backend	Database & Tools	Concepts
- HTML5 / CSS3 - JavaScript (ES6+) - Responsive Design - Bootstrap	- PHP - Node.js (basic) - Session & Cookie Mgmt. - RESTful APIs	- MySQL / mysqli - Git & GitHub - Cisco Packet Tracer - OWASP ZAP	- RBAC & Auth - MVC Architecture - Agile / Teamwork - OOP in PHP & C

PROJECT EXPERIENCE

Full-Stack Web Developer (Group Project)

2024 – 2025

MotoStock26 — University Group Project

- Designed and implemented the User & Account Management module including login/logout, registration, and profile editing.
- Implemented Role-Based Access Control (RBAC) restricting access to admin, staff, and customer roles.
- Built secure session management and cookie handling using PHP and mysqli.
- Deployed the application to InfinityFree hosting and collaborated via GitHub for version control.
- Conducted full QA testing: wrote and executed manual test cases and an automation test plan for the module.
- Redesigned the UI with a dark navy and amber theme to improve UX and visual consistency.

Web Security Analysis (Individual Assignment)

2024

Computer Security Module | University

- Performed web vulnerability scanning using OWASP ZAP, identifying Vulnerable JavaScript Libraries and Missing SRI issues.
- Produced a formal security report detailing findings, risk ratings, and remediation recommendations.
- Applied ISO 27001 controls to build an Information Risk Register and Statement of Applicability.

EDUCATION

BSc (Hons) Computing — Computer Science Specialization

2022 – Present

University | Sri Lanka

Key modules: Web Application Development · Operating Systems · Database Systems · Computer Security · Computer Networks · Data Systems · Design & Analysis of Algorithms

A/L — Physical Science Stream

Completed 2022

Secondary School | Sri Lanka

ADDITIONAL INFORMATION

- Languages: English (Professional), Tamil (Native)
- Interests: Tamil music & Western notation, open-source web projects
